

science in action how to follow scientists and engineers - *one cannot but be impressed by the scope of latour s work this is no mere bricolage but a coherent and powerful framework for research i predict that science in action will have an impact comparable to thomas kuhn s structure of scientific revolutions both as a provocation to philosophers and as an inspiration to sociologists and historians of science*, **reason truth and history philosophical papers cambridge** - *hilary putnam s reason truth and history is an interesting ambitious well written book which deals with a broad set of issues in epistemology metaphysics value theory and the philosophy of language and diverse thinkers ranging from plato berkeley and kant to carnap quine kuhn wittgenstein and foucault*
