

creative haven winter wonderland coloring book adult - *i like the concept of this coloring book where it falls down a tad for me is in the actual execution of some of the designs for instance in a number of designs the faces of people turn into black blobs because too much detail was put into too small a spot, **amazon com darth vader and family coloring book** - this is a great coloring book filled with cute designs featuring darth vader and his kids leia and luke are shown as children and even teens in humorous depictions with their dad*
